

### **Additional Applicable Inspections**

The inspections or assessments listed below may duplicate INSURV inspections, and may enable the scope of your upcoming INSURV inspection, to be reduced. INSURV will review the data provided by reports of these events to ascertain if the scope and depth of the inspection was reasonably close to what we require, "as found" conditions were documented, the required equipment data was documented and available, and the inspection/ assessment was completed by an independent, qualified assessor. INSURV will work with the ship in an attempt to consolidate within the INSURV process any inspection or assessment scheduled shortly before your INSURV. To support consolidation, we request you submit a list of any events completed within the sixty days prior to your INSURV date. The Board needs this listing, along with completion dates and applicable inspection report data prior to your INSURV. Any inspections or assessments not included in the list below, which meet the above criteria, may also be submitted for consideration.

#### **All Ships/Submarines as Applicable**

1. Underwater Hull Inspection
2. Diesel Inspection
3. Boiler (propulsion/aux/waste heat) inspection
4. Gas turbine
5. CSRR (consolidated with 2M repair cert, 2M ATE cert, magazine sprinkler insp)
6. TACAN Certification
7. AVCERT on Air Capable/Amphibious Assault Ships
8. SEMAT (CNSL) or AEC (CNSP)
9. Weapons/Cargo/Aircraft Elevator Assessment (PARSE/SEMAT in LANT)
10. Sonar Dome Radiography
11. Precision Approach and Landing System (PALS)
12. Field Cal Activity (FCA) Audit
13. Oil Pollution Abatement (OPA) and Oil Water Separator (OWS) Certification
14. Weapon System Pointing and Firing Cutout Zones
15. Diving and Hyperbaric Chamber Cert (Dive platforms only)
16. Medical Readiness Evaluation (MRE)
17. Mine Readiness Certification Inspection (MRCI)
18. ULM-4 Range Check
19. Sonar Certification
20. Marine Sanitation Device Certification
21. Passive Countermeasure System (PCMS) Test
22. CART II

#### **Additional Submarine Only**

1. Battery Inspection
2. Submarine Communication Groom
3. Submarine Acoustic System Inspection and Groom
4. Submarine Salvage Inspection
5. Medical Readiness Inspection (MRI)
6. Performance Monitoring Team (PMT) Hatch/WTD Inspection
